Subject: Local Disposal Assessment and Agreement

Dear Arcadis on behalf of the respondents to the Administrative Order on Consent for Remedial Design at Lower Ley Creek,

I am writing to follow up on our discussions regarding local disposal. We have spoken to the state and it has been decided that the Town of Salina Landfill may be used as a local disposal location for Lower Ley Creek. In order to move forward with this disposal alternative, the Town would need to submit a change of use, RAWP, and other engineering documentation that would follow the site management plan.

With this determination, please proceed with updating the Local Disposal Assessment report that we spoke about a number of months ago. As discussed, the Local Disposal Agreement will need to be in place in advance of the Intermediate (60%) Remedial Design submittal.

Feel free to reach out with any questions.

Regards,

Victoria Sacks
